1. What cookies are

Cookies are small files that a website stores on your device. Similar techniques, such as session and local storage in the browser, work the same way. In this policy we call them all cookies.

2. Which cookies we use

2.1 Strictly necessary

These are needed for the website to work and do not require consent:

- a setting that can remember your language choice;
- session storage that remembers that you have already seen or closed the welcome assistant or the WhatsApp message, so they do not keep reappearing. This data disappears when you close the tab;
- protection of the contact form against misuse.

2.2 Statistics without cookies

We measure page views and speed with Vercel Web Analytics and Speed Insights. They work without cookies and without recognising you personally.

2.3 No tracking or advertising cookies

We place no tracking, marketing or advertising cookies. That is why you see no cookie banner. If we ever start using them, we will ask for your consent first.

3. Third-party services

Links to WhatsApp, Instagram, LinkedIn, YouTube and Google Maps open those services. As soon as you go there, their own cookie and privacy policies apply. We do not embed third-party videos or maps on our own pages.

4. Managing cookies

You can view and delete cookies and stored website data at any time in your browser settings. The website keeps working normally afterwards.
